

**Regulations to revoke the Examination Regulations (Rules)
of the Faculty of Engineering for the discipline of 'Digital Communications'
leading to a Master of Science Degree (M.Sc.)
at Christian-Albrechts-Universität zu Kiel (Kiel University)
of 21 November 2018**

Version published on 21 December 2018 (NBl. HS MBWK Schl.-H. p. 76)

Based on Section 52 (1) 1 of the Schleswig-Holstein Higher Education Act (HSG) in the version published on 5 February 2016 (Law and Official Gazette for the Land of Schleswig-Holstein (GVObI. Schl.-H.) p.39), amended by the Act of 10 February 2018 (GVObI. Schl.-H., p. 68), after a resolution was passed by the Convention of the Faculty of Engineering of 24 October 2018, the following Rules were issued:

Article 1

The degree-specific Examination Regulations (Rules) of the Faculty of Engineering for the Master of Science (M.Sc.) degree programme in Digital Communications at Christian-Albrechts-Universität zu Kiel of 18 June 2015 (NBl. HS MSGWG Schl.-H., p. 129), last amended by the Rules of 27 July 2017 (NBl. HS MSGWG Schl.-H., p. 71), are revoked.

Article 2

- (1) These rules enter into force on 1 October 2019.
- (2) Students who are registered for the Master of Science degree programme in Digital Communications at Kiel University at the time when these Rules enter into force may complete their degrees in accordance with the degree-specific examination regulations mentioned in Article 1 up until 30 September 2020. In addition, the completion of the degree programme in accordance with the degree-specific examination regulations mentioned in Article 1 is only possible in justified exceptional cases, and only until 30 September 2022. Upon application, the Examination Board decides regarding corresponding cases of hardship. Thereafter, it is not possible to complete the degree programme in terms of the revoked degree-specific examination regulations referred to in Article 1, regardless of the circumstances.
- (3) If modules are offered in a different form, these must be completed under the new version in accordance with the Examination Regulations (2019) of the Faculty of Engineering at Christian-Albrechts-Universität zu Kiel (Kiel University) for students of 'Electrical Engineering and Information Technology'. If compulsory modules from the degree-specific examination regulations in accordance with Article 1 are no longer offered, the Examination Board will name replacement modules.
- (4) If a student has completed and passed independent parts of a module examination, these examinations will be recognised towards the modules in accordance with the Examination Regulations (2019) of the Faculty of Engineering at Christian-Albrechts-Universität zu Kiel (Kiel University) for students of 'Electrical Engineering and Information Technology'. The Chairperson of the Examination Board determines which additional examinations are necessary to complete the respective module, under consideration of the module's learning targets and the purpose of the examination.
- (5) Examinations failed before these Rules entered into force will be set off against the number of attempts in accordance with the Examination Regulations (2019) of the Faculty of Engineering at Christian-Albrechts-Universität zu Kiel (Kiel University) for students of 'Electrical Engineering and Information Technology', provided the structure of the new module examinations permits recognition.

The University Board at Kiel University granted its approval in accordance with Section 52 (1) 1 of the Schleswig-Holstein Higher Education Act (HSG) in its letter dated 21 November 2018.

Kiel, 21 November 2018

Prof. Dr Hermann Kohlstedt
Dean of the Faculty of Engineering
at Kiel University
